

SPECIFICATIONS

Model Number	7500^{NE}
Weight Capacity	750 lbs. (340 kg)
Overall Length	88" (224 cm)
Overall Width	34" (86 cm)
Height Range	
Low	23" (59 cm)
High	32.75" (83 cm)
Litter Positioning	
Fowler Backrest	0°-90°
Trendelenburg	+12°
Reverse Trendelenburg	-7°
Head Rest Range	
Up	1.5"
Down	1.5"
Total Range	3"
Head Rest Tilt	
Range	+30° -18°
Patient Surface	82" x 27" (208 x 69 cm)
Side Rails	12.5"x 56" (32 x 142 cm)
Casters	8"(20 cm)
Warranty	1 year parts and labor

STANDARD FEATURES

- 750 lbs. weight capacity
- Stainless steel glide side rails
- Pneumatic articulating head and neck rests
- Pads - 4" Head and 6" Neck
- 4" Premium mattress (part # 750719)
- Pneumatic adjustable fowler
- Integrated push/pull handles with latch release
- Four IV pole receptacles
- Four restraint strap positions
- Quick-Release O₂ Tank Holder (US Patent 7,865,984 B2)
- Hydraulic recovery knee flex
- Hydraulic height adjustment - dual side-mounted foot pedals
- **IS6** Instant Steer - Six Wheel Steering
- Single column hydraulic cylinder design
- Brake foot pedals
- 8" easy mobility casters
- Latex-free

stretcher series
7500^{NE}
eye | neck | head stretcher

7500^{NE}

The new 7500^{NE} Stretcher is designed specifically for eye, neck and head surgery. Standard features include: center column support, retractable push handles, Quick-Release O₂ holder, and **IS6** (instant steer six wheel steering).

1 RAIL SYSTEM:
Easy to wipe clean and disinfect in the ongoing battle with germs and bacteria. This 56" stainless steel side rail is infinitely adjustable and can be locked at any height without interfering with the surgical process or patient entry and exit from the stretcher.

2 OXYGEN TANK HOLDER:
Pedigo's ergonomic Quick-Release O₂ Tank Holder is side-mounted and conveniently located under the litter to reduce caregiver bending. (US Patent 7,865,984 B2)

3 RETRACTABLE PUSH HANDLES:
Easily extend or retract push handles by engaging the safety release lock and rotate each handle upward.

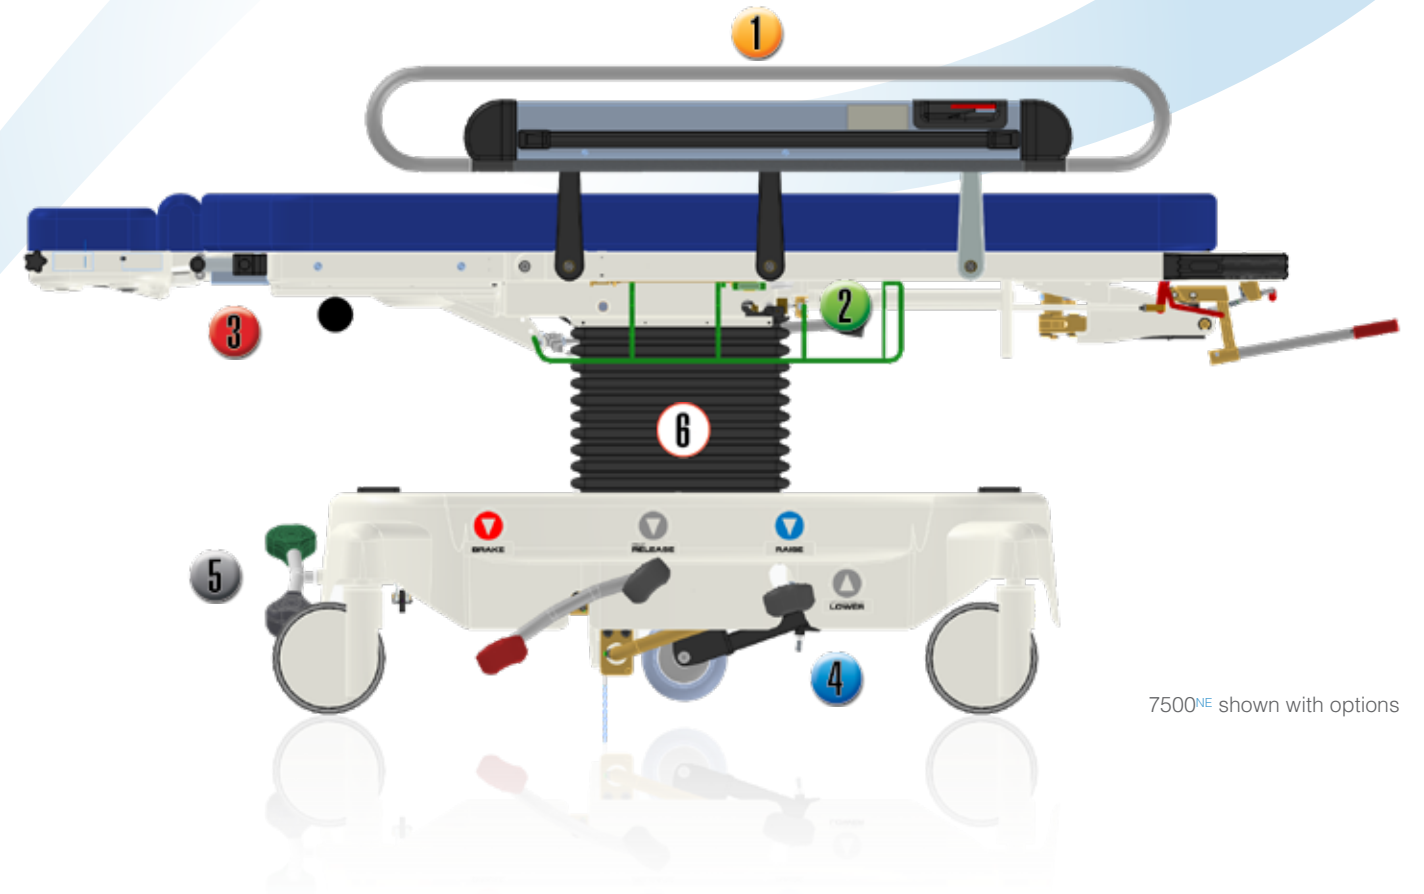

4 HYDRAULIC FOOT PEDALS:
Hydraulic foot pedals are located on each side of the stretcher within the patient care zone. Pedal function graphics are color-coded for quick and easy recognition.

5 INSTANT STEER: IS6
Mounted at the head end of the stretcher, the unique foot controlled feature places an additional two wheels on the floor for improved traction and six wheel steering.

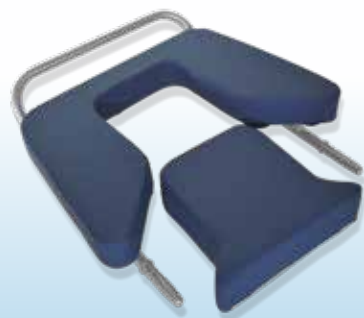

6 CENTER COLUMN SUPPORT:
Sturdy, solid steel column with single hydraulic cylinder design uses sixteen precision ball-bearings to smoothly raise and lower the patient.
