

pedigo equipment now featuring corrosion-resistant casters

co•re caster™

collection

- ✓ Corrosion•resistant
- ✓ Maintenance free
- ✓ Sealed wheel bearings

rust never sleeps

Why **co•re**™

Joint Commission: **IC.02.02.01**

- Rust was one of the top cited deficiencies by Joint Commission with 74% of facilities being cited.
- Becker's Hospital review noted the top physical environment deficiencies, which included rust on instruments and equipment. This can result in immediate issues during a survey.

The Joint Commission's "Environmental Infection Prevention Guide" suggests that when selecting equipment, facilities should consider if the equipment has components that may rust.

Solution

corrosion-resistant casters

Pedigo's medical equipment now features our **co•re casters™**. This collection of corrosion-resistant casters are designed to combat rust, bacteria and HAI's in hospitals and operating rooms.

The **co•re caster™ collection** features:

- Maintenance-free
- Corrosion-resistant
- Resistant to healthcare cleaners
- Protective hood
- Quiet
