RCC-242-B

Overall outside dimensions:
46¼"W x 27½"D x 42¼"H

Usable Interior Space
37¼"W x 23¾"D x 27¾"H

Double door, with scratch and impact resistant clear polycarbonate windows; glass-filled polymer push handles on each end; CartStat biohazard indicator wheel; re • volve™ 6" diameter, maintenance-free, high-temp, engineered thermoplastic casters, two direction and two total lock casters.

The **rev•o•lu•tion™** closed case cart is ergonomically designed to be lightweight and easy to handle, requiring less push/pull force than standard case carts.

Design

- Integrated body, floor and doors increases overall cart rigidity.
- Overall weight of cart reduced.
- Inside floor is sloped 1½° to the rear of cart to contain fluids.
- High temp, impact resistant bumper is mounted directly to the cart body to reduce overall footprint.
- Roll-out shelves with two position latch mechanism safely locks the shelf in or out.
- Cart is designed to quickly drain during cart washing to minimize residual water.

ivNow

individual warming pods

features

The ivNow® fluid warmer quickly warms and maintains the temperature of injection/intravenous and irrigation solutions prior to their use. The specially contoured warming module cradles solution bags in 0.5-, 1-, 2- & 3-liter sizes. ivNow® units can be customized in the field by stacking or removing pods from the configuration. Units can be used for countertop use or wall mounted with the provided mounting plate.

Modular Configuration

Wall mount:

One to six (1-3) bag capacity

Countertop:

One to three (1-3) bag capacity

Pole mount:

One to three (1-3) bag capacity

Temperature:

- Heats to 104°F (40°C) in 30 minutes or less (slightly longer heating time is required for 3L bags)
- Accuracy of +0°/-2°C (+0°/-3°F)

Electronic Control

Monitors the length of time the bag has been held at temperature, displayed additionally by a status button. The control alerts users when a fluid bag has been held at temperature longer than 14 days.

Warranty

1 year parts and labor

space station

two tier back table

A specialty back table designed with additional room for large cases such as orthopedics, spinal fusions, neuro and craniotomies. The tuck-away cantilevered shelf holds multiple trays and is angled for clear observation of instruments.

The Space Station is easily rolled into position using 4" diameter, heavy-duty ball bearing brake/swivel casters. To lock swivel caster, simply engage the single-pedal brake.

One Person Operation

Pneumatic assist enables one-person operation in raising or lowering the cantilevered shelf.

Shelf is easily raised when extra space is required, or lowered into storage position if not needed.

Cantilevered shelf features a 10° slope and has an adjustable height from 49.9" to 52.9".

PreFixx® is engineered so that upholstery can be cleaned again and again without showing signs of wear. With easy cleanability, and proven stain and abrasion resistance, PreFixx protective finish can reduce maintenance costs and frequent re-upholstery.

Performance: Offers state-of-the-art resistance against staining, burnishing, abrasion, scuffing and blocking.

Durability: Creates a barrier that resists stains from penetrating to the surface of the vinyl for proven, long-lasting protection. With laboratory-tested stain resistance and improved wear properties, upholstery treated with PreFixx protective finish can retain a "like-new" appearance longer.

Easy Maintenance: Enables most common stains like dirt and smudges to wipe off easily. Many difficult stains like ballpoint ink also can be cleaned with active solvents, such as nail polish remover, without damaging the PreFixx protective finish (when recommended cleaning instructions are followed).
