**Overall outside dimensions:**  
46¼"W x 27½"D x 42½"H

**Usable Interior Space**  
37¼"W x 23¾"D x 27¾"H

Double door, with scratch and impact resistant clear polycarbonate windows; glass-filled polymer push handles on each end; CartStat biohazard indicator wheel; re • volve™ 6" diameter, maintenance-free, high-temp, engineered thermoplastic casters, two direction and two total lock casters.

The **rev•o•lu•tion™** closed case cart is ergonomically designed to be lightweight and easy to handle, requiring less push/pull force than standard case carts.

**Design**

- Integrated body, floor and doors increases overall cart rigidity.
- Overall weight of cart reduced.
- Inside floor is sloped 1½° to the rear of cart to contain fluids.
- High temp, impact resistant bumper is mounted directly to the cart body to reduce overall footprint.
- Roll-out shelves with two position latch mechanism safely locks the shelf in or out.
- Cart is designed to quickly drain during cart washing to minimize residual water.

- **CAL TB-117** Flammability test for the filling or padding material of furniture. Tests the flame retardance of resilient filling materials used in upholstered furniture - including the fabric.

- **CAL TB-133** A full-scale fire test of the entire unit including the frame, foam and upholstery.

- **American National Standard for Office Furnishings** This standard is intended to provide manufacturers, specifiers, and users with a common basis for evaluating the safety, durability, and structural adequacy of general-purpose office chairs. For example, load and impact testing.

- **Business & Institutional Furniture Manufacturer's Assoc.** A not-for-profit organization that advocates, informs and develops standards for the North American office and institutional furniture industry.

## Care Instructions

PreFixx® is engineered so that upholstery can be cleaned again and again without showing signs of wear. With easy cleanability, and proven stain and abrasion resistance, PreFixx protective finish can reduce maintenance costs and frequent re-upholstery.

**Performance:** Offers state-of-the-art resistance against staining, burnishing, abrasion, scuffing and blocking.

**Durability:** Creates a barrier that resists stains from penetrating to the surface of the vinyl for proven, long-lasting protection. With laboratory-tested stain resistance and improved wear properties, upholstery treated with PreFixx protective finish can retain a “like-new” appearance longer.

**Easy Maintenance:** Enables most common stains like dirt and smudges to wipe off easily. Many difficult stains like ballpoint ink also can be cleaned with active solvents, such as nail polish remover, without damaging the PreFixx protective finish (when recommended cleaning instructions are followed).

A specialty back table designed with additional room for large cases such as orthopedics, spinal fusions, neuro and craniotomies. The tuck-away cantilevered shelf holds multiple trays and is angled for clear observation of instruments.

The Space Station is easily rolled into position using 4" diameter, heavy-duty ball bearing brake/swivel casters. To lock swivel caster, simply engage the single-pedal brake.

## One Person Operation

Pneumatic assist enables one-person operation in raising or lowering the cantilevered shelf.

Shelf is easily raised when extra space is required, or lowered into storage position if not needed.

Cantilevered shelf features a 10° slope and has an adjustable height from 49.9" to 52.9".
