Fluid Inventory Management Systems

Flexible, fast, compliant fluid warming available at your fingertips.

ivNow®

ivNow-1

Capacity

One (1) bag, up to 3ℓ

ivNow-2

Capacity

Two (2) bags, up to 3ℓ

ivNow-3

Capacity

Three (3) bags, up to 3ℓ*

- Can provide from 25 to 78 liters of warmed fluid during a 12-hour period.
- Easy-to-Use: Place the IV bag in the pod to activate the unit. Fluid is automatically warmed up to 104°F (40°C) in 30 minutes or less
- Capacity: Each pod holds up to 3-liter bag size
- Configurations: Flexible Configurations: ivNow pods can be placed on countertops, mounted to walls, and attached to pole stands for mobility and convenience.
- Compliance: Each pod displays actual temperature of bag and records shelf life to reduce IV bag waste as a result of expired fluids

ivNext®

Advanced visual management of your fluid supply tells you all you need with one glance.

Intelligent Fluid Warming

- Know when an IV bag has reached the recommended set point temperature.
- Color-coded lighting indicates bag readiness or expiration.
- Organized inventory allows for faster retrieval of fluids.
- Overall Size: 18.5"W x 23.5"D x 22"H
- Capacity: 2.5 cubic ft. | 10 1-liter bags

* Check with your distributor for availability if purchasing outside of the USA.

WarmSafe™ Technology

Zone heat warms safely, quietly and evenly.

You do not need statistics or charts to tell you that patients respond well to warmed blankets and fluids. You have seen it first hand time and time again. With our patented WarmSafe™ warming technologies, our uncompromising quality construction and our variety of sizes and features, we help you maintain that kind of positive patient response – the kind that helps reduce recovery time and ensures a comfortable stay.

Intelligent heating tracks temperatures in each zone, adjusting to deliver precision warming and preventing overheating and discoloration.
